

# We're Joining Wellstar!

Griffin OB-GYN Clinic is excited to announce we're joining Wellstar Health System. Beginning January 21, 2025, our new name will be **Wellstar OB-GYN Spalding**.

## Will the location of the practice change?

Yes, the practice will move most of its services to a new medical office building near Wellstar Spalding Medical Center, located at **619 S 8th Street, Suite 200, Griffin, GA 30224**. The new location is only a two-minute drive from the current main office, mammogram office, and Renew Gynecology. The existing Thomaston location will open later, and Thomaston patients will be seen temporarily at the new Griffin office. The clinic's phone number will not change.

## Is there anything I need to do?

No, you will not need to take any action at this time to continue as a patient of our practice. Our goal is to make this transition as smooth and seamless as possible. Patients from our main location, the Thomaston office, and Renew Gynecology will transition to the new practice. All appointments will continue as scheduled, though the location may change.

## What benefits will this transition offer to patients?

As part of Wellstar, patients will be connected to an expanded network of specialists, advanced technologies, and centralized resources. With the transition to Epic and MyChart for electronic medical records, integrated patient information will ensure more comprehensive care.

## How will this transition affect my billing/payments?

Patient billing processes will remain the same. Our team is available to help address any issues that may arise.

## How will this transition impact my current care team?

Patients will continue to receive outstanding care from existing doctors, advanced practice providers and nurses with the practice. We are also looking to expand the care team over time.

Thank you for trusting our team with your care. We look forward to continuing our partnership with you on your healthcare journey.

If you have any questions or concerns, please contact our office at **770-227-5505**.
